AI. English

Aim

In Level AI, students begin to study basic sentences. Some of the worksheets focus on specific aspects of grammar and spelling. Students gradually read longer passages and stories to enhance their reading development and prepare them for further study. The contents of Level AI are outlined below.

No.	Topic	Description
1-10 11-20 21-30 31-40 41-50 51-60	Simple Sentences	Students are introduced to the subject and predicate structure of simple sentences. The students are not expected to know the terminology at this stage. By writing sentences into subject and predicate 'sentence diagrams', students develop their reading skills and comprehension ability.
61-70 71-80 81-90 91-100 101-110	Basic Expressions	In this section, students learn how to use expressions such as can, may, might, must, should, etc. in a natural context. They are also introduced to common ways of expressing future, present and past.
111-120	Story	Extracts from several children's stories are reprinted here. The stories have been selected for students to enjoy reading independently
121-130 131-140 141-150 151-160 161-170	Making Short Sentences	Simple punctuation is introduced here. Students will then learn how to complete sentences correctly. This improves both their reading and their writing skills.
171-180 181-190	Vocabulary Review	Students revise some of the vocabulary which has been used throughout the level. They extend their reading and spelling skills in these exercises
191-200	Story	Extracts from several children's stories are reprinted here. The stories have been selected for students to enjoy reading independently

The Importance of Reading

Reading aloud from the worksheets is an essential part of Kumon English. Please ask your instructor how much oral reading should be completed at home. Kumon recommends that all students read as widely as possible.
